

WHO WE ARE

We are the Service Club of Chicago

We are the oldest all women's philanthropic foundation serving the Greater Chicago Area since 1890

We are doctors, bankers, musicians, retailers, lawyers, journalists, fashion consultants, philanthropists, authors, entrepreneurs & many other professions.

We are mothers, grandmothers, daughters, granddaughters & nieces who believe in giving back. In some cases we are the third generation in one family.

We are supported by hundreds of loyal donors, sponsors and guests who believe in us. In some cases they, too are the third generation in one family.

We are aware that our best philanthropic function is fundraising and we invest in other carefully screened foundations with specific expertise in programs.

We are proud of our Philanthropic Committee's unique, annual hands-on review of each grant applicant, requiring hundreds of volunteers hours.

We are grant makers with the widest possible parameters for grant applicants in the social service, cultural, educational & civic fields in their neighborhoods.

We are driven by our hearts to reach out into small neighborhood programs making a difference in the lives of children, elders, the abused & neglected.

We are ever mindful of Chicago's great foundations and reach out to help special projects inside those foundations that would otherwise go unfunded.

We are the collective conscience of 175 active women and the beneficiaries of 122 years of understanding how to help others.

We are proud of our contributions yet humbled by how much more we wish we could do.

We are inviting you to help us in our rewarding, ongoing & ever-changing work!
